🎯 CAREER OBJECTIVE

To seek the career in a globally growing organization where I can apply my skills & knowledge for the growth of mine and the Organization.

🎓 EDUCATION

Bachelor of technology Punyshlok Ahilyadevi Holkar Solapur University	2021 – 2025 9.6 (85%)
Higher secondary education Maharashtra State Board	2020 – 2021 87.50%
Secondary education Maharashtra State Board	2018 – 2019 88.20%

💼 PROFESSIONAL EXPERIENCE

Intern Software Developer CodingEra Software Pvt Ltd	Pune
- Assisted in developing and maintaining web applications using HTML, CSS, JavaScript. - Collaborated with the development team on real-time software projects. - Learned the fundamentals of the software development lifecycle (SDLC). - Enhanced problem-solving and teamwork skills in an agile work environment.	

📁 PROJECTS

Online Student Management Technology used: HTML, CSS, JavaScript, SQL , PHP. Description: Developed modules for attendance and feedback. The Feedback module allows anonymous student submissions, faculty-generated questions, and percentage-based performance reports. The Attendance module enables faculty to record class-wise attendance by date, subject, and session, linking it with syllabus progress.	2025 – 2026
Online Blood Management Technology used: HTML, CSS, JavaScript, SQL , PHP. Description: Developed a web-based platform for blood donation and tracking, enabling users to register as donors, search for blood groups, and manage donation records. The system facilitates efficient donor-recipient matching and real-time availability tracking, improving responsiveness during emergencies.	2024 – 2025
Personal Expense Tracker Technology used: Python, JSON, File Handling, Git, GitHub. Description: Developed a command-line Personal Expense Tracker using Python to manage and monitor daily expenses efficiently. The application allows users to add, view, update, and delete expenses, calculate total spending, and generate category-wise expense summaries. Implemented input validation, exception handling, functions, lists, dictionaries, and JSON-based file storage to maintain expense data. The project demonstrates practical knowledge of Python programming, file handling, data management, and Git/GitHub version control.
